# WANTED

Wanna jump start your career as  
a mining engineer, metallurgist,  
geologist, mechanic or carpenter?  
Go work your way Down Under!

Western Australia's Outback, with its  
booming mining industry, offers exiting  
and well paid jobs for academic mining  
professionals and skilled tradesmen.

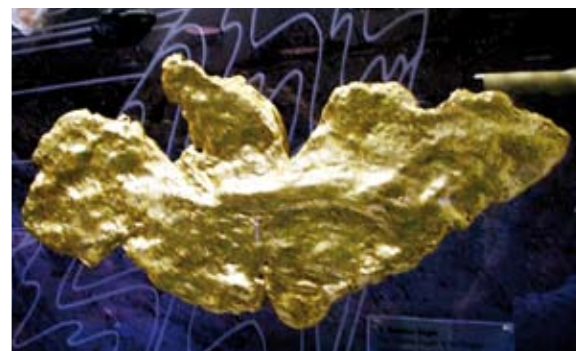

**Booming** • Nickel, iron ore, lead, zinc, alumina, coal, copper, gold... Western Australia has it all, in huge quantities. With its booming mining industry, 'WA' is hotter than ever before. So if you're an engineer, metallurgist, geologist, carpenter, mechanic or another academic professional or skilled tradesman, contact Want2Work. And we'll get you a challenging job, a good salary, and some adventure.

**Safety** • Australia's mining industry is one of the most advanced in the world. For example, mines all over the world use Australia-developed computer software for geology and mine planning. The high standards also go for safety: Australian mines are among the safest in the world. It is common practice to test miners on the use of alcohol and drugs. Command of the English language is a must.

**Cash & relax** • Western Australia's mining professionals enjoy a great life. Mines in remote Outback areas are exploited on fly-in-fly-out basis. Workers fly in for two weeks of solid work, then they fly out for one week of rest. During working weeks there's free accommodation, meals and entertainment on site. A great way to earn and save cash at the same time. The Republic of Mining, as Western Australia is also called, is a great place to relax. Discover the vast Outback, with its millions of kangaroos, national parks or one of the state's many beautiful beaches. During weeks off there's also lots of time to discover the vibrant city of Perth, with its great nightlife, or the lay back life of mining cities such as Kalgoorlie.

**No worries** • Working in Western Australia is easy, with Want2Work. If you decide to go Down Under for at least a year, we'll take care of you. We'll make sure you get an exiting job with one of Australia's modern mining companies. We'll take care of all the paper work (visa etc.), housing and transport. You can even bring you family (wife/girlfriend/ kids -18). Your partner is allowed to work, too. We'll also take care of that. No hassle. Or, as they say Down Under: no worries!

Want2Work has years of experience in helping Polish workers finding jobs abroad. For example, already hundreds of Polish workers have found well paid jobs in the Netherlands.

Want2Work is part of the Dutch company Van Rooij BV. In 2007 Bertie van Rooij, founder and CEO of Van Rooij BV, received a prestigious business award in the Netherlands as 'Boss of the Year'.
